

# OPEN SEMINAR CRITICAL RAW MATERIALS

## WHEN

**May 29th**  
**8pm – 14:15pm**

## WHERE

**JIBS – B1033**

Jönköping International Business School  
Gjuterigatan 5, Jönköping

## FEATURING · Master Students from ILSCM Programme

**Agenda: Lithium (8.15-8:50), Light Rare Earth Metals (8.55-9.30), Cobalt (9.35-10.10), Aluminium (10:35-11:10), Heavy Rare Earth Metals (12.15-12.50), Nickel (11:15-11:45), Cooper (12:55-13:35), and Steel (13.35-14:15)**

## PROJECT PRESENTATIONS

### RELEVANCE

Raw materials are economically and strategically crucial for the sustainability transition but have a high-risk associated with their supply chains.

### THE DILEMMA

The decarbonisation of the energy mix is heavily reliant on wind and solar energy development. This reliance on specific resources raises concerns about demand and sustainability for strategic metals.

### SPONSORS

JIBS Responsible in Action (RIA)  
CSR Småland

### BENEFITING

Students,  
researchers and  
practitioners.
